FA	Failure due to absence

Grade Point Average

The student's Grade Point Average (GPA) is the sum of products of grade points and credit hours of each course and then dividing the result by the total number of credit hours of the semester.

$$GPA = \frac{\sum_{per\ course} (Grade\ Point \times Credit\ Hours)}{Total\ Number\ of\ Registered\ Credit\ Hours\ in\ Current\ Semester}$$

Courses with letter grades of TC (Transferred Credit) and I (Incomplete) are excluded from the GPA calculation.

Cumulative Grade Point Average

The Student's Cumulative Grade Point Average (CGPA) is the sum of products of grade points and credit hours of each course registered in current and previous semesters and then dividing the results by the grand total number of credit hours.

$$CGPA = \frac{\sum_{per\ course} (Grade\ Point \times Credit\ Hours)}{Total\ Number\ of\ Registered\ Credit\ Hours\ in\ all\ Semesters}$$

The CGPA is used to determine the student academic standing and progress in all semesters.

Scaling System

The numerical performance (CGPA) needs to be also translated qualitatively in terms of students' performance. The grade descriptors will help define the students' overall level of skills and provides more comprehensive information to both academic and corporate.

CGPA	Description
3.60 – 4.00	Excellent
3.00 – 3.59	Very Good
2.50 – 2.99	Good
2.00 – 2.49	Satisfactory
Less than 2.00	Un Satisfactory

14.2 ACADEMIC PROGRESS POLICY

Good Academic Standing

In order to be considered in Good Academic Standing students must achieve a minimum CGPA of 2.00 at the end of each Semester. A CGPA of 2.0 or above is required for graduation.

Academic Probation

Students with a CGPA of less than 2.00 by the end of the second academic semester will be placed on probation. The probation cannot exceed three consecutive semesters and the concerned students must revert to good Academic standing within the set period. Failure to achieve a CGPA of 2.00 will lead to Academic dismissal.

Students with a CGPA less than 2.00 cannot register in courses without their advisors' approval.

- A student whose CGP is less than 2.00 by the second semester of the academic year will receive a first academic warning. Students on first academic warning can only register in 4 courses.
- Student who fails to raise their CGPA to 2.00 after the first warning shall be given a second academic warning and placed on academic probation for the next semester. Students on academic probation can only register in 3 courses. All courses being repeated courses.

If a student fails to raise his/her CGPA to 2.00 at the end of the prescribed period of the probation, he/she will be dismissed form the program.

Incomplete (Grade I)

Grade I is allocated to students who fail to complete the final assessment of a course, namely; final examination or final research-based assessment. Unless an official excuse submitted by the student and accepted by the concerned faculty member, the final assessment must be completed and marked during or before the period of add/drop of the following semester as determined by the College, otherwise a grade F (Fail) will be awarded for the relevant course.

The Grade I will exceptionally be extended for one semester for internship or any course assessed by a graduation project only, if an official excuse submitted by the student and accepted by the concerned faculty member during the last week of the relevant semester and/or before the final examination period.

Student must provide a legitimate reason for absence within three working days (3 days) and pay the make-up exam fees upon dean's approval.

Repeat Course

If a student has failed in a course, it is advisable to repeat it in the following semester. Students are at liberty to repeat the completed courses for the sake of improving their CGPA. They can repeat up to two times, but credit hours will be counted only once in the total credit hours required for graduation.

In all repeated course cases, the highest grade is considered for CGPA calculation.

Attendance Policy

Students are expected to attend all classes and be punctual.

Throughout the Program, regular attendance and participation in classroom activities are compulsory. The Instructor will monitor attendance at the beginning of each session.

Students absent from class without prior approval of the Department Chair will be issued a first Warning after 10% of absenteeism and a second Warning at 20%.

Absenteeism of 25% in any course will result in failure due to absence (FA) and a grade of zero will be assigned.

A student with a legitimate and valid reason for missing a class can request his absence not to be counted. Such absence should be reported with supporting documents in the student file.

Students unable to attend classes for a certain period for medical or any other "force majeure" reasons have to produce proper supporting documents and submit a written leave of absence to the concerned Department Chair/Dean for approval.

Dean's List

At the end of each Academic Semester, a Dean's List of academically outstanding students is issued by the Registrar's office. The Dean's list consists of the top 10% of the best performing students in each school. Dean's list designation applies to only Fall and Spring Semesters.

Grade Appeal

A student has the right to appeal a course grade that he believes was not satisfactory. Disputes over final course grades may reflect disagreements that have arisen as the result of a late-semester project or the final exam. Students' grade may only be changed by the instructor during the semester or by the recommendation of the Grade Appeal committee for the final exam grade.

Both students and faculty have rights and responsibilities in the grading process:

1. Faculty members have the responsibility to provide students with syllabi that clearly outlines the basis on which students will be assessed and graded
2. Faculty members have the responsibility to provide their students with timely feedback on their performance on quiz, case studies, projects, Mid-term and other assignments during the semester.
3. Students who wish to appeal are responsible for clearly demonstrating that the final grade they received is contrary to procedures as specified in the syllabus, or was biased or based computational error.

Faculty members and students should communicate regularly and openly about all grading issues. A student who is dissatisfied with an instructor's grading decision during a semester should discuss the issue with the instructor and attempt to resolve the matter informally. A student who believes that a grading issue has not been satisfactorily resolved should speak with the instructor's department chair about the matter. The department chair should work with both the student and the instructor to address the issue. The decision of the department chair regarding issues on course work grades are final.

Procedure

Students can only file for a course grade appeal at the end of the semester as per the following procedure:

- Course Grade appeal can be lodged within a maximum period of 3 days from the time of the official release of the grades;
- An official Grade appeal form with proper reasons and relevant documentations and justification must be duly filled up and submitted to the Office of Admissions & Registration;
- The Department Chair will convene a Grade Appeal Committee Chaired by him\her and consisting of two faculty members to review the grade appeal;
- The Grade Appeal Committee will re-examine final exam papers and grade distribution assuming that the student has seen his\her total assessments before the final exam and will take a decision to maintain or modify the grade(s);
- The Grade Appeal Committee might request additional materials/documents from the instructor and/or student.

- All parties concerned, including the student and course instructor, will be notified of the final decision taken by the Grade Appeal Committee.
- The decision of the Grade Appeal Committee is final and the concerned students can no further dispute it;

Minutes will be taken during the deliberations of the Grade Appeal Committee
