

FLUENT ENGLISH FLUENT OPPORTUNITIES

Sometimes people feel too shy to speak to the people next to them. Therefore, it makes English conversation courses essential for anyone looking to take their language proficiency to the next level. After all, mastering the art of conversation is key to using English in real-life situations.

Conversation course

English conversation classes offer a safe and supportive space for students to enhance their speaking and listening skills. These courses cater to those seeking practical communication improvement, with discussions, role-play, and group activities. Levels include elementary and intermediate.

Course Components

1. The teacher selects a topic and students answer questions about it, while in some conversational classes, students choose the discussion topics.
2. Students receive short paragraphs for in-class reading and discussion.
3. In our conversation classes, movie discussions involve watching a film and then discussing it with the teacher and peers.
4. We assess each conversation course level at the end.
